

## Who is Coral Coast Water?

Coral Coast Water Pty Ltd is a wholly owned subsidiary of Gascoyne Water Co-Operative Ltd (GWC) formed in 2002 to supply non-potable water to customers typically on lots less than 6ha.

The water supplied is non-potable and should not be used for any household purposes. It is strictly for stock and garden use only.

Anyone living in the area we are licenced to conduct irrigation services can apply to have a Coral Coast Water connection connected to their property.

Coral Coast Water aim to provide a service to customers living in our operating area who have a need for water to be used in the garden or to fill up livestock watering tanks.

A Wholly owned subsidiary of  
Gascoyne Water Co-operative  
Ltd

## How to apply for a Coral Coast Water connection?

A customer seeking a new connection should fill out a Coral Coast Water application form.

The GWC Board will review the application at the next monthly meeting. Approval of the application will depend on the availability of the connection in your location, whether the purpose meets the requirements for water usage and the availability of water within GWC's allocation.

There is a standard connection fee of \$5500 (incl. GST) applicable to all standard connections. Standard connections are where the feeder line runs directly past your property and on the same side of the road. Non-standard connections will be on a price on applicable basis.

A Supply Contract will be forwarded to approved connections detailing the conditions of connection and annual service and usage tariff structures. No connection will be installed without a signed Supply Contract.

The service will be installed within ten (10) business days from the date the following requirements are met: payment of the connection, a signed supply contract being returned and all "Private Works" e.g. minimum 5,000 Litre water storage tank fitted by a licenced plumber including registered air gap (Supply Contract details all Private Works requirements)

## What is the cost of Coral Coast Water and how is it calculated?

An annual fixed service charge payable to CCW is billed quarterly for commercial customers and annually for non-commercial customers.

Water usage charges are based on a year to date consumption total and billed monthly.

See below table for more information relating to non-commercial charges.

If you are a commercial property/business please request a copy of our Commercial Rates & Charges or download a copy from our website.

Table 1—Non-Commercial Water Charges

Year to date consumption 0-	\$0.80 / KL
Year to date consumption 2001-	\$0.88 / KL
Year to date consumption 4001-	\$0.92 / KL
Year to date consumption 5001 & over (becomes classed as a com-	\$1.20 / KL
Year to date consumption 5001-	\$1.30 /KL
Year to date consumption 6001-8000KL	\$1.30 / KL
Year to date consumption 8001-10000KL	\$1.40/KL

Table 2—Annual Fixed Service Charge

25 mm service (GST free) charged in January each year (non-commercial)	\$187.55
50mm service commercial rate	\$618.75
Billed in January, April, July and October (\$2,475.00 PA) GST free.	

## Conditions of having a CCW connection

Water supplied under a Coral Coast Water contract can't be used for potable purposes including drinking, cooking, cleaning, bathing, laundry or any other household usage. It is to be used for stock and garden purposes ONLY.

Your accounts must be kept in good standing and paid in a timely manner and our trading terms are 28 days from date of invoice.

Your meter service area is to be kept clear and accessible at all times including providing access to read meters e.g. locked gate-provide key.

All other conditions are set out in the Supply Contract.
