Would you like payment for any water you sell to be put onto your GWC/GWAMCO outstanding accounts?

Acceptance & Approval:

I have read and accept the Terms & Conditions.

If you are buying/selling temporary water and you have outstanding accounts with GWC/GWAMCO you will be required to pay off those accounts with the monies raised from your temporary sale or prior to your temporary water purchase being processed unless you are on a payment plan. This is a condition under the GWC rules – as GWC have the right to refuse any transfer if either the buyer or the seller owes money to GWC/GWAMCO. The above member agrees to GWC releasing contact information to other members for purpose of water trading and understands trading details will be on the GWC online trading register.
